Educational Program Report

Printed: 02/04/2020

The AANPCB Aggregate Score Report contains information about candidates who tested with our organization for the previous year. The report is provided to NP program administrators as a measure of their graduates' achievement; however, score information will be reported when 3 or more candidates have taken the respective certification examination during the designated reporting period. Each examination contains 135 scored questions, broken down into the content testing domains. The Program Average (Prog Avg) represents the average score for all initial and retake exams taken by the program graduates and is in the column next to the National Average (Natl Avg) for comparison. Out of a total testing score of 800, the minimum score of 500 is needed to pass.

NP Educational Program Report Legend

Cds- Total number of candidates* from your NP program who tested

Pass 1st- Total number of candidates who passed the 1st time tested

Atts- Total number of attempts by candidates from your NP program

Items- Total number of questions per testing domain

Pass- Total number of candidates from your NP program who passed

Natl Avg- Average score of all tests administered

N/R- Not Reported (less than 3 testers)

* Candidates include all testers from the NP Program for that reporting period. Only 2 attempts are allowed per year.

Graduation Year Statistics reports the passing rate and number of candidates who tested by year the exam was taken and year of NP program graduation.

This aggregate data will only be provided when 3 or more candidates have taken the certification exam during the designated reporting period.
